Environment, Nature Conservation,
Building and Nuclear Safety

of the Federal Republic of Germany

Implemented by:

Sharing EbA-related good practices in Ha Tinh province

By Ha Tinh DONRE, Feb. 2018

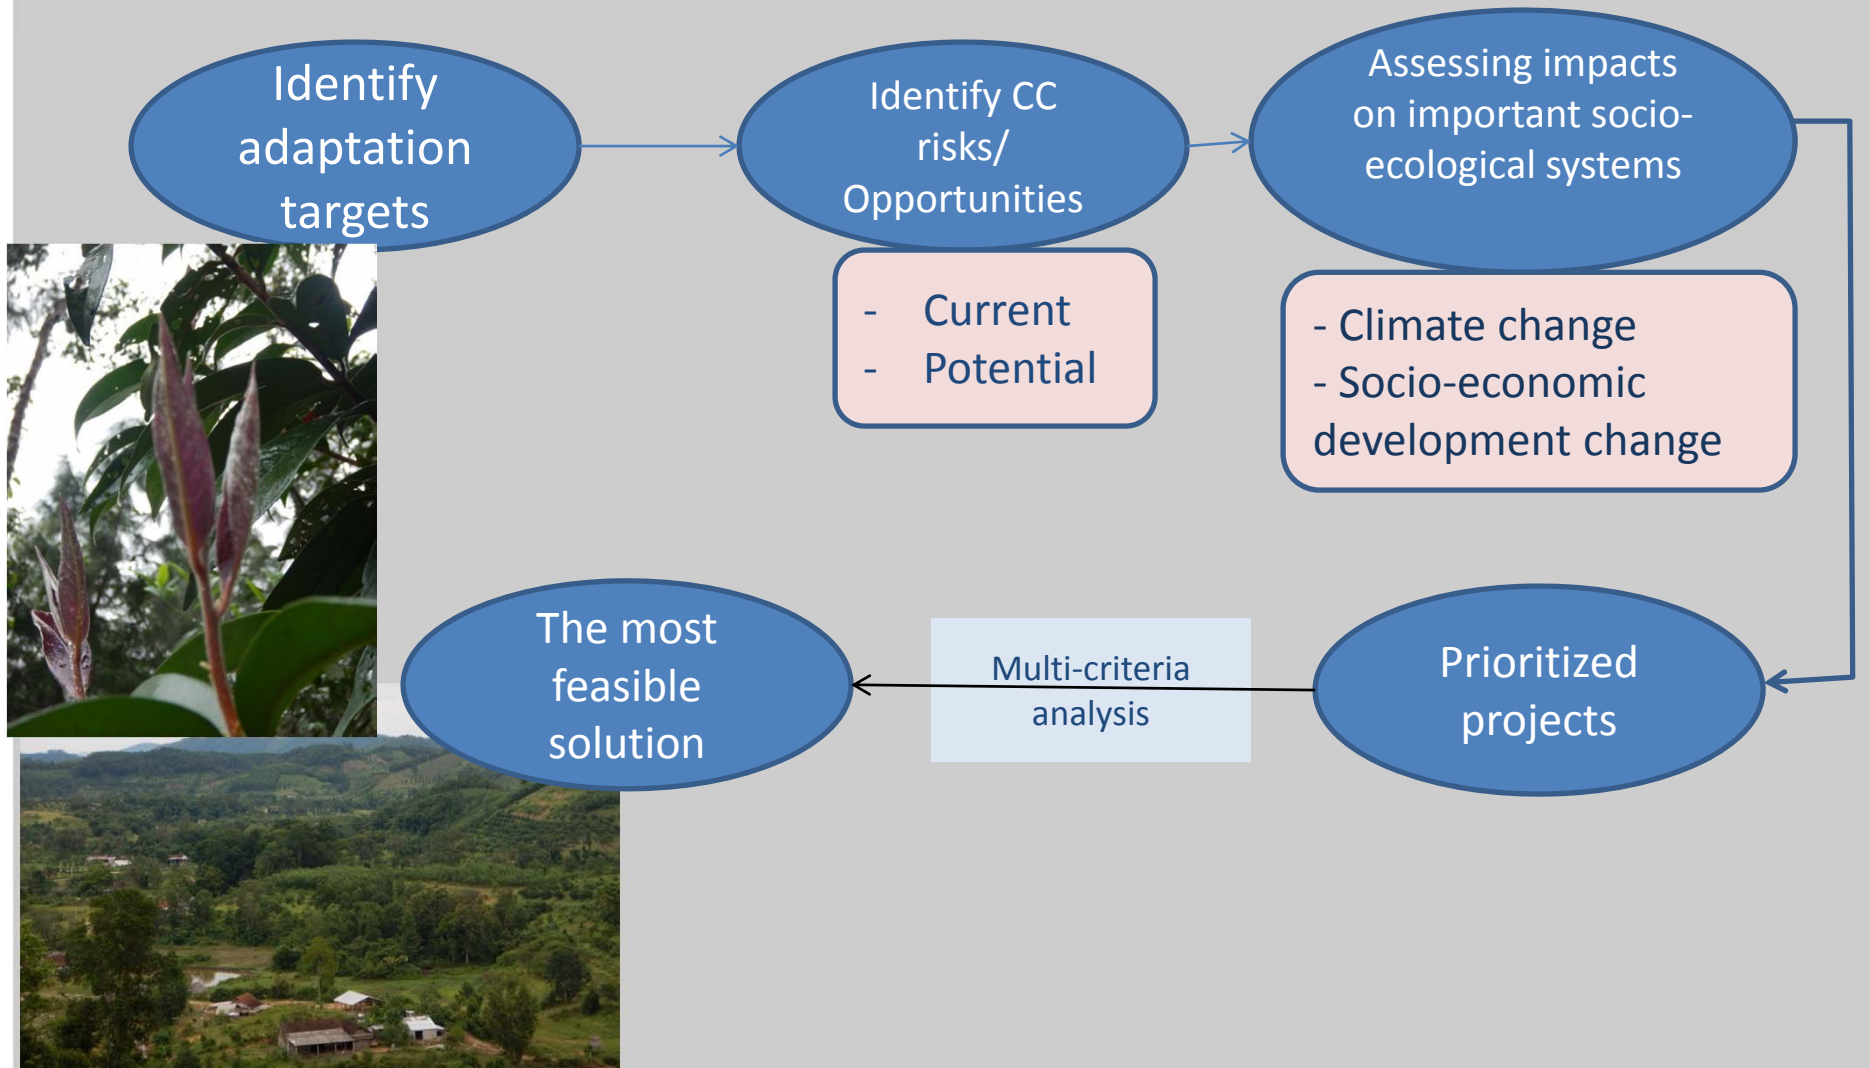

Contents:

- A. Sharing experience of integrating EbA into the Updated Action Plan
- B. The pilot EbA - for forest protection and enrichment
- C. Raising awareness on CC/CCA/EbA to communities
- D. Lessons learnt and recommendations.

A. Experience of integrating EbA into the Updated Action Plan

A1. Implementation of CCRAP:

A2. Integrating EbA into the Updated Plan:

Secondary document studies

Exposure

Sensitivity

Multi-criteria analysis

Potential Impacts

Adaptive Capacity

Integrated EbA measures

Vulnerability

A3. Lessons learnt and recommendations on integration:

- Communication and enhancing awareness, capacity on CCA/EbA for different stakeholders
- Experts with in-depth knowledge on CCA/EbA are needed to support for reviewing and integrating at provincial level.
- Consider what are the contributions of the provincial level to the institutionalization at national level.
- Focus on interventions with feasibility, in line with local resources and knowledge.
- There needs to be involvement of local authority leaders.
